Index to Volume Twenty-Five of The Paper Industry and Paper World

April, 1943—March, 1944

Page numbers in this index are preceded by numbers of the issues. April, 1943, is No. 1 and March, 1944, is No. 12

A

Absenteeism and turnover, reducing...11, 1233
Accidents, off-the-job 5, 512
Adjustable steam turbines, paper mill replaces steam engine with..... 8, 875
Air compressor auxiliaries, importance of 8, 896
Appling, John W. *1
Arc welding, paper mill maintenance benefited by 4, 387
Arnold, Kenneth A. *1
Arnold, L. K.—McLeod, J. B. A neutral sizing material for insulating board.. 2, 156
Artificial pulpstones, care of..... 9, 995
Association Meetings
American Chemical Society holds 106th meeting 7, 804
Annual meeting of the National Paperboard Association 9, 1004
A.P.P.A. wartime conference.....12, 1356
Army-Navy Requirements Conference sponsored by TAPPI..... 7, 726
Divisional group meetings.....12, 1394
Michigan Superintendents and Kalamazoo TAPPI hold annual joint meeting.11, 1242
National Paper Trade Association.....12, 1400
Paper industry pledges support "Until the struggle is ended".....12, 1348
Thirty-second annual Safety Congress organized to speed Victory..... 7, 751
Salesmen's Association marks its silver anniversary 12, 1390
TAPPI looks at postwar horizons.....12, 1362
Wartime service meeting of Superintendents Association 4, 390
Ayers, Lewis R. *1

B

Babbitt without a mandrel, how to..... 3, 275
Babson, Major John C. *1—Baker, Harold T. *1—Baker, R. R. *1
Ballman, D. E. and Smith, Dr. F. B., Fungicides and germicides in the pulp and paper industry..... 2, 143
Barber, Frederick C. *1
Barraclough, K. E., Pulpwood from farmers 8, 871
Battery-powered industrial trucks, maintenance of 1, 41
Behind the headlines..... 5, 502
Black liquor pump life, increasing..... 5, 511
Board, a neutral sizing material for insulating 2, 156
Bonding, the nature of hydration and fiber
Part I 4, 382
Part II 5, 507
Bornstein, Bernard, Care of artificial pulpstones 9, 995
Brackett, A. B. *1—Brauns, F. E. *1
Brazed ends make wire rope safer to handle 1, 43
Breakdowns, motor maintenance prevents 3, 269
British paper industry's part in total war, the 8, 867
Brookbank, E. Bruce *1—Buchanan, M. A. *1
Budd, Charlotte R., Free China's paper industry 2, 172
Building employee morale during this war period 9, 981
Bullock, Warren B., Import Committee's Twentieth Anniversary 12, 1424

C

Calculator, Kv-a.—Kw.—Hp. 9, 987
Campbell, Lieut. W. F. *1—Cameron, D. D. *1
Care of artificial pulpstones..... 9, 995
Care of the wire..... 6, 601
Casciani, Ferri *2
Chaplin, M. P., Patents and the paper industry 11, 1221
Chemists in the paper industry, women 1, 33
China's paper industry, free..... 2, 172
Cirves, Francis J., Tall oil recovery..... 2, 149
Clark, Frederick C. *1
Clark, James d'A., The nature of hydration and fiber bonding
Part I 4, 382
Part II 5, 507
Clark, James d'A. *1—Clark, Ralph S. *2—Clarke, Geo. L. *1—Claybourn, L. W. *1
Cleaning house in a paperboard mill.. 6, 611
Cockrell, Robert A. *1
Cockrell, W. D., Electronic control—maintenance and trouble-shooting tips 5, 503
The electron tube—genie, gremlin or jeep? 11, 1230
Codwise, Philip W. *1
Collins, Jr., T. T., A review of the literature on wet strength paper..... 3, 263
Common sense in postwar planning....11, 1262
Compressed Air Institute, Importance of air compressor auxiliaries..... 8, 896
Construction, Wood in pulp and paper mill 1, 36
Control instruments in pulp and paper production 4, 375

CONVENTION PAPERS, ABRIDGED

American Pulp and Paper Mill Superintendents Association
Copper plating in the paper industry, Roland A. Packard.....10, 1158
Current operating problems and developments in a paperboard mill, Fred S. Crysler 5, 530
Importance of a recovery unit as steam generating equipment in the pulp mill, the, F. H. Rosencrants..... 6, 652
Maintenance of steam heater sections, W. K. Metcalfe..... 6, 658
Phenolic materials meet wartime demand of paper industry, Frank W. Vogt 6, 662
pH in pulp bleaching, Ferri Casciani... 4, 426
Power plant operation and maintenance, G. Harold Suhs..... 6, 664
Rubber crisis, the, A. C. Lutz.....10, 1157
Salvage of materials at KVP, Ralph S. Clark 5, 534
Surveys as an aid to moving pulp and paper faster with limited manpower and equipment, Edward Southworth. 4, 422
Tissue machines, J. E. Goodwillie..... 5, 528
Use of waxes and wax emulsions in the waterproofing of kraft papers, the, R. B. Killingsworth..... 5, 526
Wet strength resin for stock addition, Ralph Kumler 4, 425
Women in war plants, Ellen M. Davies. 4, 420

Technical Association of the Pulp and Paper Industry
Acclimatization of bacteria to disinfectants used in the paper and board industry, John W. Appling, B. F. Shema 8, 906
Action of nitrogen dioxide on unbleached pulp, George L. Clark, E. Heuser, Charles M. Sigvardt..... 9, 1026
An engineer's conception of postwar planning, Milton Jacobs.....12, 1430
Application and maintenance of pumping equipment associated with water treating equipment, A. T. Nielsen.... 3, 309
Application of the lithographic processes to war work, Wm. H. Wood..... 3, 314
Comparison of calender treatments, Albert Yraola 6, 642
Comparison of southern and northern kraft pulps, a, Otto Kress, Francis T. Ratliff 8, 910
Conservation in and by chlorination, R. B. Martin..... 1, 76
Corrosion problem and how it may be solved, the, Herbert B. McKean.....10, 1144

(*) See Convention Papers . . . Abridged. (1) TAPPI; (2) Superintendents Association.

R v. 25' Ap-S 1943

Cylinder machine vat-circle width, John B. Gough 5, 536
Deinking and reuse of old papers, Frederick C. Clark 3, 302
Drainage and steam for paper machine dryers, Roderick O'Donoghue 6, 638
Drying rates of newsprint, 1942, W. K. MacNaughton 1, 88
Effect of pulp bond density on engine sizing, William S. Wilson, Harold E. Duston 11, 1264
Effects of various cooking conditions on the bleachability and strength characteristics of kraft pulp, the, Edward H. Hill 3, 312
Efficient reuse of process water, H. A. Morrison 2, 190
Estimation of carbonyl groups in chromic anhydride oxystarch and oxycellulose by means of hydroxylamine, E. K. Gladding, C. B. Purves 3, 306
Experience of a paper mill in bacteriological control, George M. Suydam and Ruth R. McConky 12, 1434
Factors affecting smoothness of paperboard, K. C. Melenbacker 3, 304
Features of adjustable speed electric drives to meet the requirements of the paper industry, R. R. Baker 1, 80
Flat crush test, the, Pierre Drewsen 1, 88
Flow properties of coating clays at high rates of shear, Kenneth A. Arnold 1, 64
Further comparison of sodium- and calcium-base sulphite acids II, A. M. O. Schur, E. G. Ingalls 4, 438
Heat utilization in sulphate mills, Harold T. Baker 5, 551
How to do business with the Navy, Lieut. (jg) Robert Faegre 7, 780
Improvement of electrical circuit in the News penetration tester, D. D. Cameron, W. C. Kenyon 6, 644
Ink drying as affected by various paper stocks, Matt J. Leckey 7, 800
Kraft pulping of southern tannin rich woods, the, Loren V. Forman 12, 1442
Luminescent pigments, G. F. A. Stutz 12, 1428
Marking of Army shipments, Capt. G. Wallerschein 7, 793
Metallographic examination of plant equipment, Murray M. Rubin 11, 1274
Metaphosphate increases the washing efficiency of chemical pulps, E. R. Lang and E. T. Laurin 7, 802
Method of determining hydraulic properties of woven wire mesh screens, a, J. F. Halladay 12, 1432
Nature of lignosulphonic acids fractionated by chemical and physical methods, Willis M. Van Horn 9, 1036
Navy supply lines, Rear Admiral Everett G. Morsell 7, 772
New derivatives of lignin, E. Bruce Brookbank, F. E. Brauns, H. F. Lewis, M. A. Buchanan 4, 436
New instrument for measuring the liquid permeability of paper and other porous materials, a, William H. Lane 1, 70
Number of fibers per gram of pulp and its relation to fiber dimensions, the, John H. Graff 10, 1136
Package problems confronting quick-frozen food industry, A. B. Brackett 3, 300
Packaging medical supplies for the Army, James D. Studley 7, 797
Packaging problems of the Army Air Force, Major Ray Schmidt 7, 800
Packaging requirements for dehydrated vegetables, J. R. Sanborn, G. J. Hucker 5, 548
Packing materials required for preservation, Lieut. (jg) D. R. Weedon, Jr. 7, 774
Packing mechanical parts, H. H. Snyder 10, 1143
Paper and container conservation and reclamation within the Navy Department, Frederick C. Barber 7, 782
Paper mill operating experiences with accelerator softeners and clarifiers, A. C. Embshoff 2, 202
Paper problems in telephone apparatus, David A. McLean 11, 1272
Paper products as a factor in chemical warfare service packaging, Lieut. Theodore P. Steinmetz 7, 788
Paper sinews of war, Brig. Gen. E. E. MacMorland 7, 772
Performance of evaporators, J. P. Rubush, G. E. Seavoy 5, 544
Photochemical stability of papers, the, Herbert F. Launer, William K. Wilson 1, 84
Pipe and tube materials survey in sulphate pulp process, S. B. Jones 2, 180
Possible stream pollution aspects of mill antiseptics, Willis M. Van Horn. 8, 919
Power load on calenders of newsprint machines, W. G. MacNaughton 12, 1440
Problems in the packaging of signal equipment, Lieut. W. F. Campbell ... 7, 796
Problems in packaging war material, George A. Garratt 10, 1154
Problems of the Government printing office, A. E. Giegenack 8, 909
Pros and cons regarding the recovery of fibers from white water, K. W. Fries, J. D. Gaffney 12, 1438
Pulping of extracted yellow pine wood chips, the, Otto Kress and Robert H. Mosher 8, 916
Rapid cupriethylenediamine viscosity method for control work, a, R. M. Levy, P. Muffat and W. D. Harrison. 12, 1440
Recent work at the Institute of Paper Chemistry on dielectric properties of paper, J. A. Van den Akker 12, 1426
Refractory selection and maintenance problems, Dave W. Wuerthele 4, 433
Relation of ink to stock, the, Herbert Jay Wolfe 2, 200
Relation of paper to printing on multicolor high-speed presses, L. W. Claybourn 3, 312
Requirements of protective papers for ordnance overseas packaging, H. T. Holbrook 7, 794
Resistance of sized paper and paperboard to water at elevated temperatures, the, Philip W. Codwise 1, 90
Role of fingerboard in the packaging of war material, the, Robert A. Cockrell 10, 1149
Salvage and conservation of materials, A. Boyd Zook 6, 648
Study of dyestuff absorption by fillers and their effect upon the color of filled papers, Otto Kress, Peter Trucano 5, 550
Study of the relationship between the air permeability and oil permeability of paper, a, William H. Lane 1, 78
Substitution and conservation—the role of paper in the war, Robert J. Zaumeyer 8, 912
Sulphite pulp production: some factors pertinent to meeting war-born shortages, J. H. McGovern, G. H. McGregor 9, 1030
Tall oil for the war effort, J. M. Wafter, A. Pollak, R. Hastings 2, 196
Tests on fiber containers, the beach puncture tester, Sidney D. Wells, Arthur B. Kaplan, Lewis R. Ayers ... 5, 552
Theory of box compressive resistance in relation to the structural properties of corrugated board, a, John R. Little 1, 68
Ultimate strength of pulp fibers and the zero-span tensile test, the, James d'A. Clark 1, 73
Urea-Formaldehyde Resins in the beater, Robert J. Myers, George V. N. Morin 11, 1268
Use of melamine resins for better wet strength, Charles S. Maxwell 4, 430
Water-resistant tapes for export packaging, Burton Lee Trodson 10, 1151
What can the engineers expect of paper packaging for overseas shipment? Major John C. Babson 7, 796
What the Quartermaster Corps expects from paper products, Major Robert R. Melson 7, 784
Cotton stalks for synthetic lumber 6, 612
Cowlin, R. W., Pulpwood supply for Pacific Northwest mills 7, 713
Crysler, Fred S. *2

Current Thought
